First World War as a squadron of the Royal Flying Corps and disbanded after the war. Reactivated shortly before the Second World War, it was inactive again after the conflict. During its second existence it was a bomber unit and had the distinction to be the first to operate the de Havilland Mosquito light bomber. During the 1960s it was

No. 105 Squadron RAF - Wikipedia

The Battle-axe referred to was contained on the 105 Sqdn crest, and it was a widely traveled unit.

Operating first from England, against the ports and convoys on occupied northern Europe, they demonstrated how dangerous the doctrine was.

This attack is well remembered and described in Battle Axe Blenheims, the unit history of the squadron, where the target is described as a 'Squealer', a radio-equipped early warning vessel that acts as spotter for the the defenses on Sicily. Four ships had gone out that day, led by Squadron Leader Duncan, the others commanded by Sgts.
