### The Ultimate Guide To Boudoir Photography (88 Best Tips)

My favorite two ways of using gels in boudoir are to either saturate the frame or do a colored rim light. To saturate the frame, gel two lights and place them at either side of your subject! For rim-lighting, set up one overhead light in white and two lights to the side of your model in a gel color.

To amplify the drama, this light is modified by a 1x3' stripbank equipped with an egg-crate grid. This setup really focus the light on Peyton's face and left side, and eliminates any light falling onto the black background. This look is the epitome of dramatic boudoir photography!

### Dramatic Boudoir Photography - Lighting and Posing Tips

For the most flattering and easy lighting set-up, angle your model slightly towards the window (or slightly behind the window for some nice edge light). Position yourself adjacent to the window. This is my favorite look. You can try collapsible reflectors to bounce or reflect the light from the window back into shadow areas of the subject.
