Most people look at the extension of a file and then guess the  
type of file from that extension. For example, when you see a file  
with an extension of gif, jpg, bmp, or png you think of an image  
file, and when you see a file with an extension of zip, you  
assume the file has been compressed using a zip compression  
utility.

in "Choose default apps by file type" in Windows 10, there are two file types that are not listed; how do I add a file type to the list so that I can associate that file type with a file. For example, I often receive a file that has a file type of .stmt and another file with a file with the name viewdoc.file. They are both PDF files.
