Alexa is Amazon's proprietary speech-driven service, similar to what Siri is for the iPhone. Commands to the service are known as skills, and these capabilities run the gamut from playing a particular song to raising the temperature on a thermostat. Skills are like apps you activate with your voice.

Listening, communication and delegation are all examples of soft skills. The opposite of soft skills are hard skills, which are technical abilities like knowing how to code in python, make a graph on excel, or speak a foreign language. While hard skills can be more easily defined and measured, soft skills are more difficult to measure.
